

28. To Lieutenant Bacon, of the Maryland
Independant Company.
Sir,
As those Stockades on Pattersons Creek,
are only intended by way of cover to the Rangers, and
as a Receptacle now and then for Provisions; you are
desired not to plan any work, which requires much
time to execute - we have neither men nor Tools,
to carry on the undertaking with vigour.
I am &c. G. W.

Colloquium: Scientific Computing for the Humanities

Applications of Part-Structured Models to Handwritten Document Analysis
